

Notice of Motion

CLUB REDEVELOPMENT PROPOSALS

I hereby give notice that I will move, at the 2024 Special General Meeting of Members to be held on the 24th of October, the following motion for adoption.

Proposed by:

Seconded By

David Bovell

Date:

Motion

That should the development proposals submitted not gain approval, the attached drawing submitted by a member be taken into consideration by the General Committee when reviewing options

Explanatory Notes

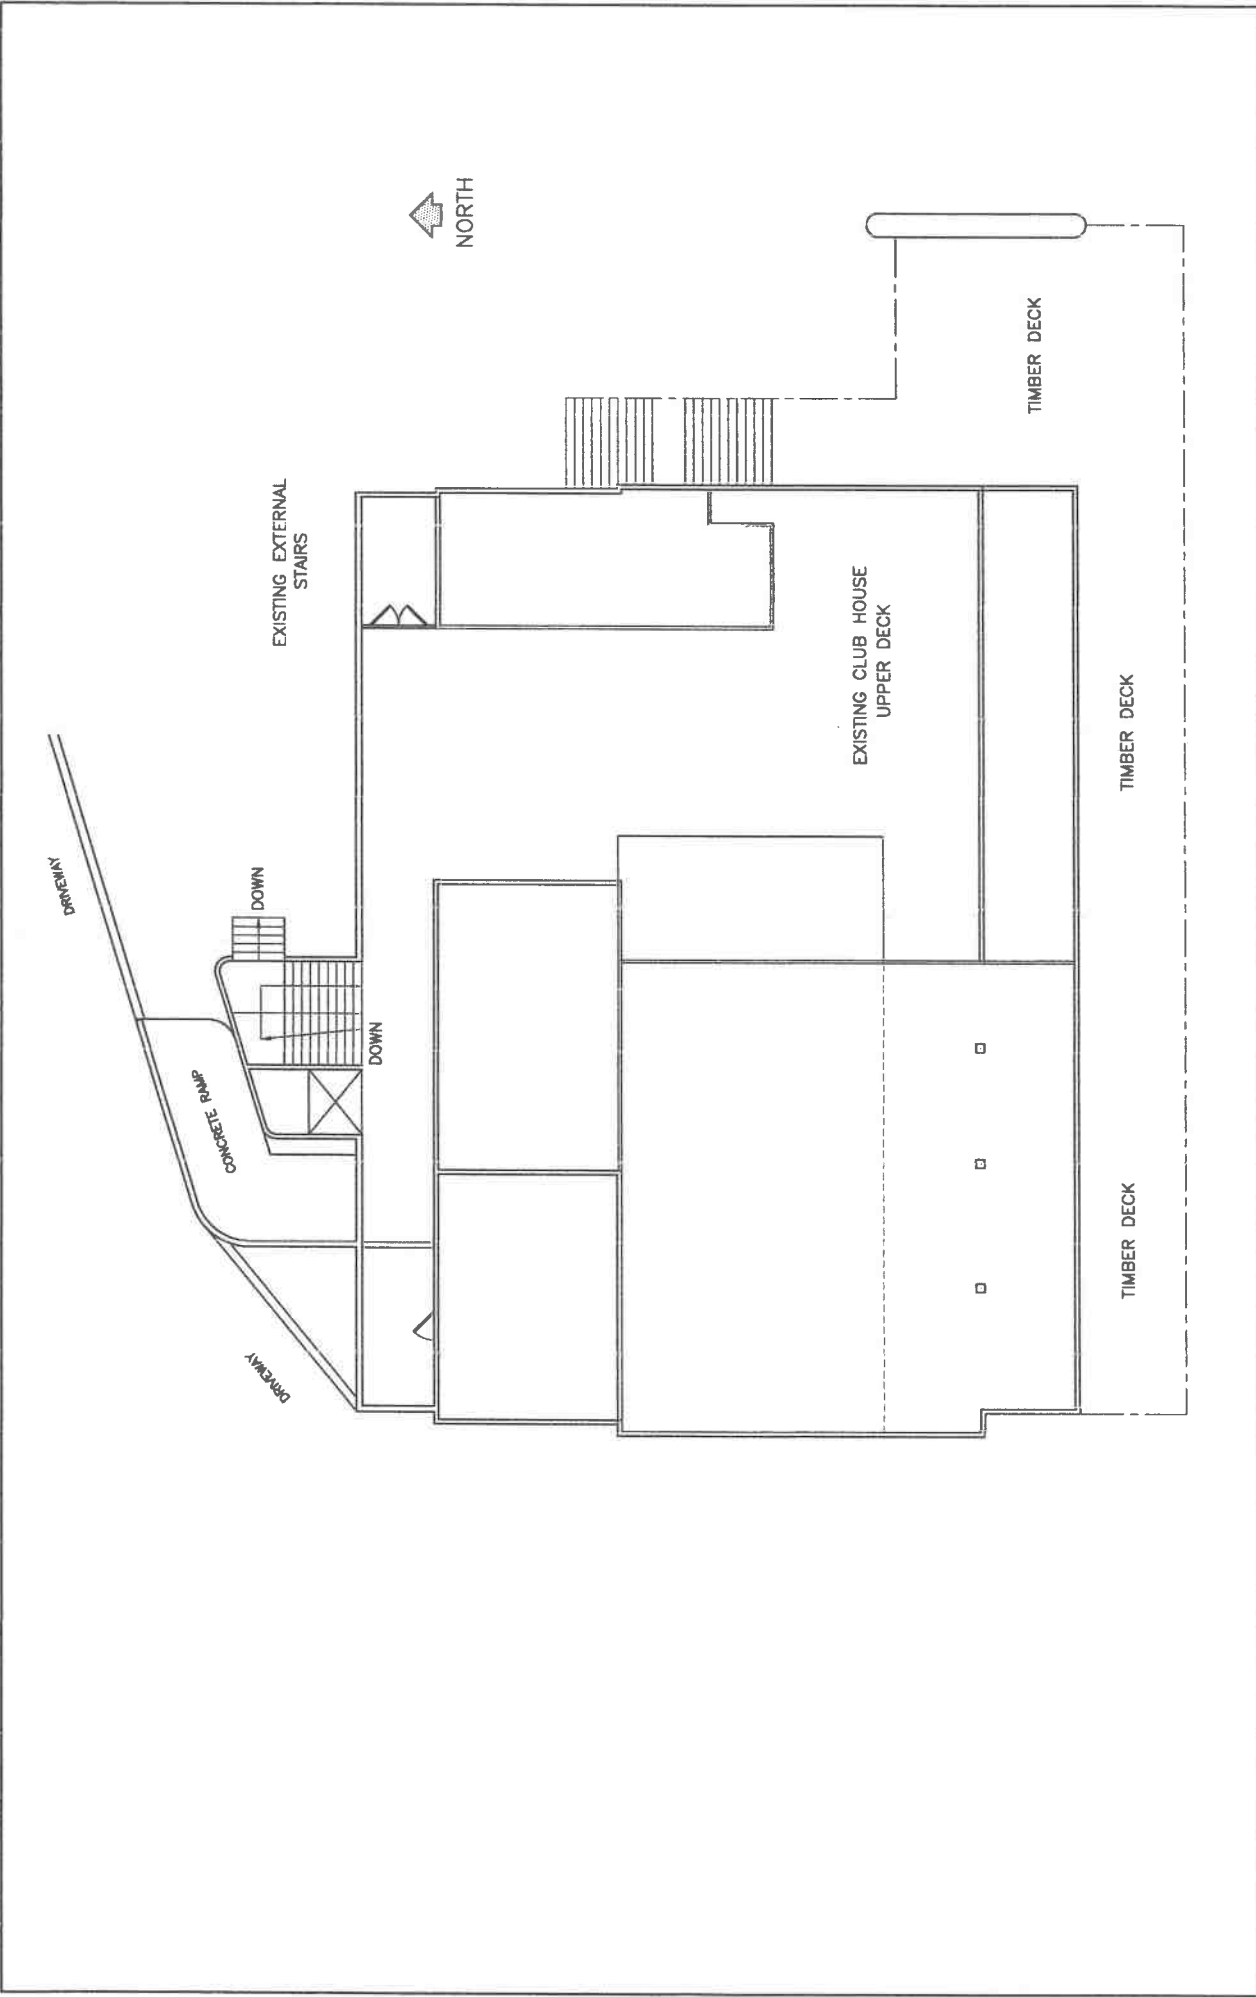

Following a discussion in the clubhouse a member with drafting qualifications has kindly submitted his ideas to the club. It is not intended to be a final proposal but it is illuminating and provides the basis for further discussion.

It is not the first time members have come up with ideas for improvements, however, in the absence of a forum to communicate these to the members, only a motion to a meeting ensures widespread dissemination.

Had the General Committee actively sought out ideas we may not be facing a situation where there is widespread discontent.

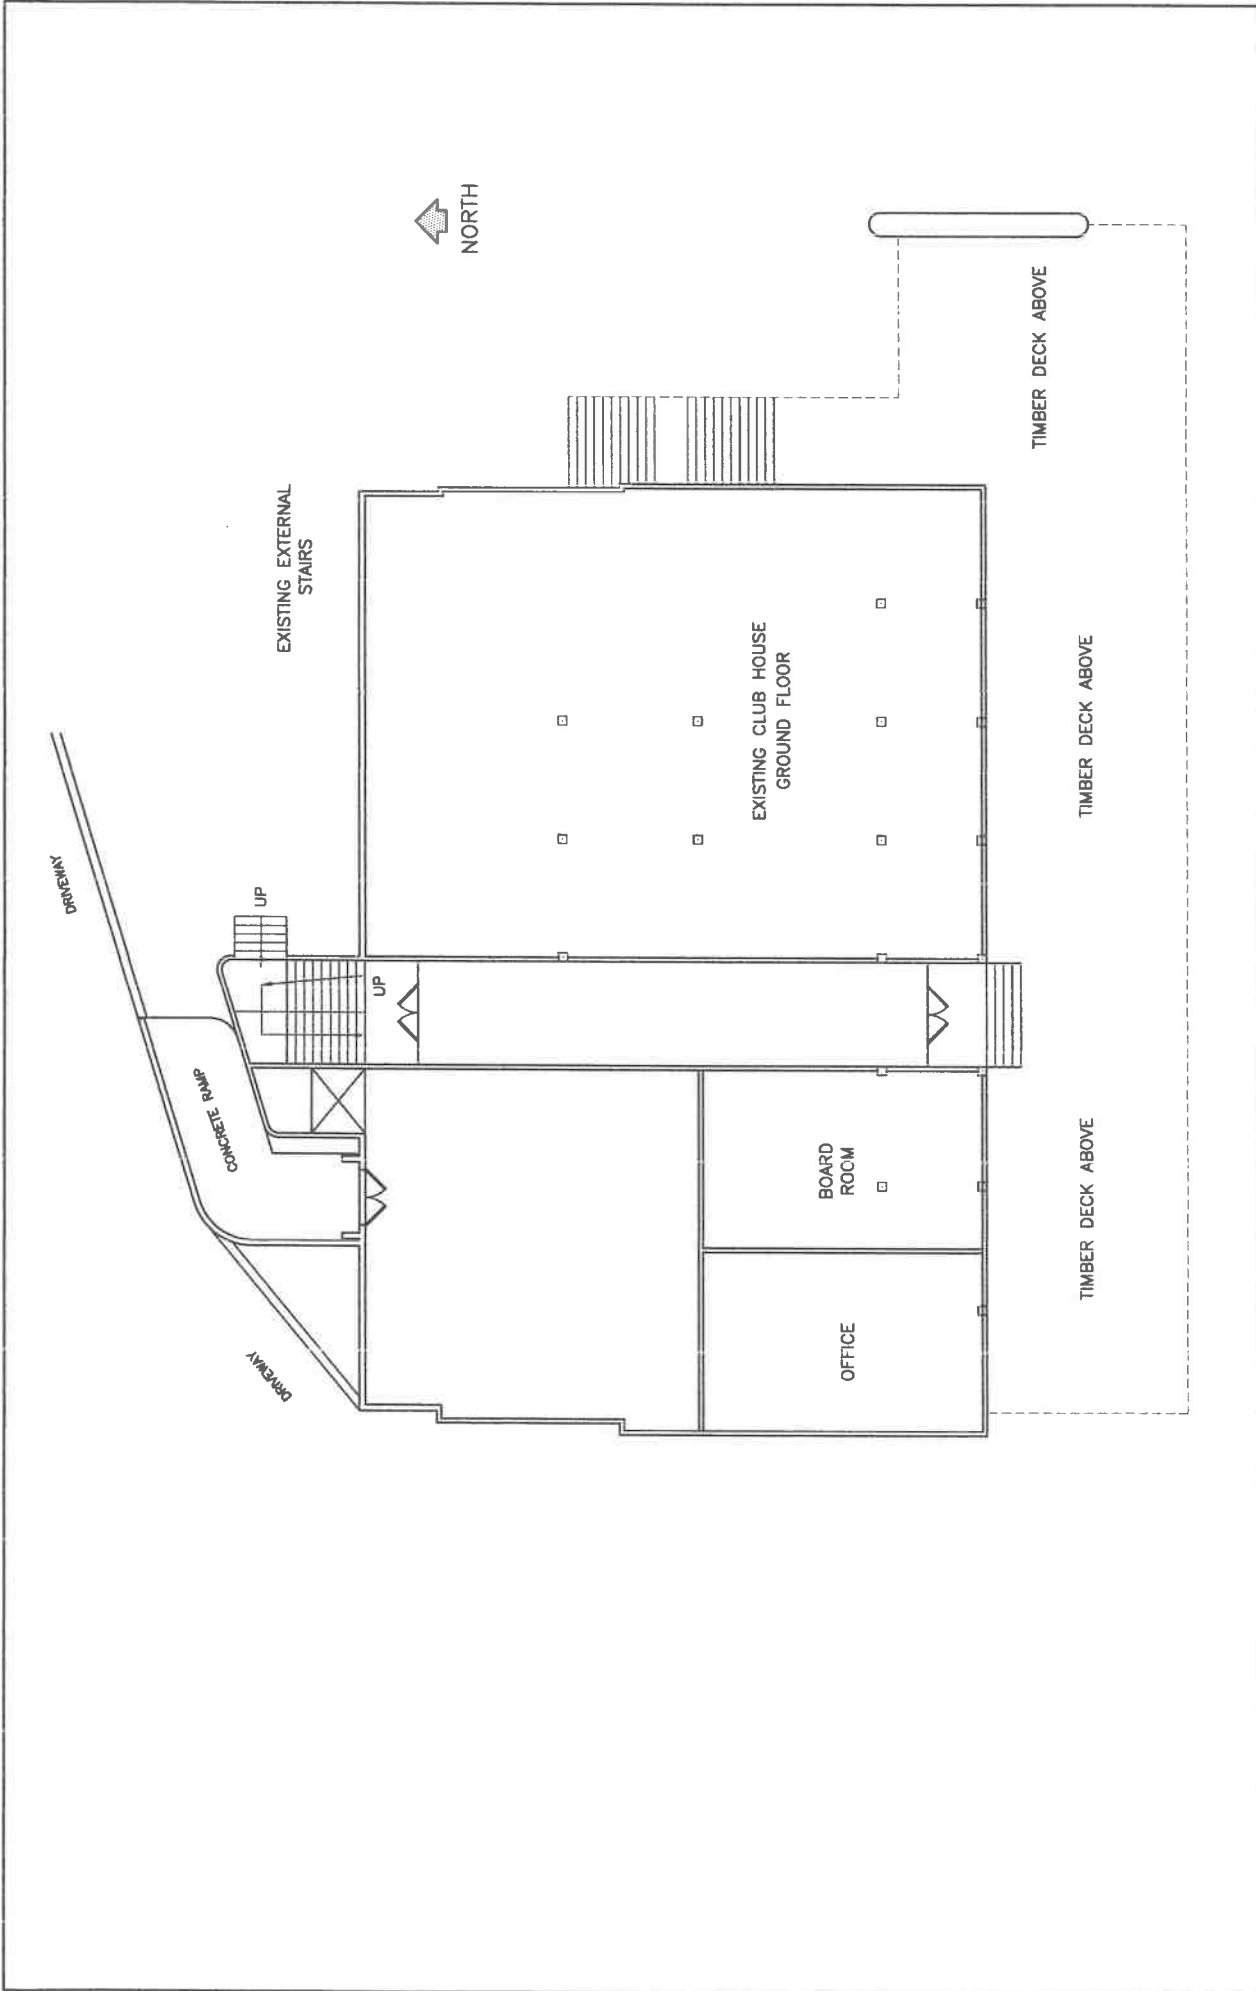

The current grand staircase and lift does compromise our views both upstairs and in the Deepdene. It also makes the Deepdene, which is often filled to capacity, considerably smaller.

DOES THIS REALLY MAKE SENSE
